To start Alice: Go to My Computer → Local Disk (C:) → Program Files → Alice and then double click on Alice.exe.

Story 1:

[Tip: Mark the initial camera position.] Once upon a time, there was a  
___boy/girl___ named _______________. [To start, he/she is looking away from the camera, but he/she turns, waves, and introduces himself/herself.] He/she walks toward us and says, “I’d like to introduce you to two of my pets. Would you like to meet them?”

[Interactive part of the story] If we say no, he/she gets a bit huffy, thinks that we are “no fun” and leaves. If we say yes, he/she introduces a cow named ____________, who walks over to him/her and says “Moo.” He/she then introduces his/her pet ____________ named ____________ who comes over to him/her and ______________ ____________________________ ____________________________.

[If time allows, add additional scenery to the animation or additional action/dialog to the story.]
